

Should cellular telephones be allowed on airlines? No, no, no, no!!!!!! The thought of being stuck sitting next to someone gabbing on a cellular telephone for a 1 to 4 hour flight is dreadful. Please do \*not\* allow this change. This law is not a safety issue (cellular phones rarely interfere with the aircraft); it is a courtesy issue. And, most people on cellular phones do not possess courtesy while talking. There is \*nothing\* so important that can't wait until landing.

Thank-you,  
Gregory S. Basinger
